**Case No. 6:19-CV-03005-MDH**

**ORDER**

Before the Court is the Report and Recommendation of the Magistrate Judge. (Doc. 9). The government has filed a Petition to Determine Present Mental Condition of an Imprisoned person pursuant to 18 U.S.C. § 4246. (Doc. 1). The government has also filed a Motion for Conditional Release. (Doc. 6). The Magistrate Judge recommends that Defendant be committed to the custody of the attorney general under § 4246 and be conditionally released under a prescribed regimen of medical and psychiatric care. Defendant has waived his right to file exceptions, and the matter is ripe for review.

On December 18, 2018, a panel of medical professionals submitted a Forensic Psychological Report. (Doc. 1-2). The panel diagnosed Defendant with “major neurocognitive disorder due to traumatic brain injury.” (Doc. 1-2 at 4). The panel further diagnosed Defendant with schizophrenia in partial remission and a rule-out mild intellectual disability and noted a history of violent behavior. *Id.* at 15. Because the panel found a causal connection between his mental defect and a risk of violence, it concluded that Defendant suffers from a mental disease and defect, the latter of which could create a substantial risk of bodily injury to another person or

serious damage to the property of another and recommended he be committed under § 4246. *Id.* at 18.

The panel also concluded that Defendant's risk for future violence would be mitigated upon release if he was closely monitored by federal probation officers. Based on that, the government filed its Motion for Conditional Release. The government has proposed a list of conditions for Defendant's conditional release. (Doc. 6-2 at 4-5).

The Magistrate Judge held a hearing on April 23, 2019. (Doc. 7). Defendant did not present any evidence but did state he was aware of and willing to abide by the proposed conditions of his release.

After careful review of the record, the Court finds by clear and convincing evidence that Defendant suffers from a mental disease and defect and, if released without proper monitoring and conditions, his mental illnesses could create a substantial risk of bodily injury to another person or serious damage to property of another. The Court hereby **ADOPTS** the Report and Recommendation of the Magistrate Judge as to the government's Petition to Determine Present Mental Condition and **COMMITTS** Defendant to the custody of the attorney general for hospitalization and treatment under 18 U.S.C. § 4246.

The Court also **ADOPTS** the Report and Recommendation of the Magistrate Judge as to the government's Motion for Conditional Release and **GRANTS** that Motion. It is **ORDERED** that Defendant be conditionally released pursuant to the following conditions:

7). Mr. Tomas shall not commit a federal, state, or local crime, and he shall immediately notify his U.S. Probation Officer if he is arrested or questioned by any law enforcement officer. He shall not associate with any person convicted of a felony, unless granted permission to do so, from his U.S. Probation Officer.

8). Mr. Tomas shall address any outstanding misdemeanor warrants and notify his U.S. Probation Officer of his efforts and report the outcome to his U.S. Probation Officer.
